

PLASMAS ARE EVERYWHERE

and they belong in your classroom!

Middle and High School Teachers and their Students
are invited to **FREE Science Events** in Fort Lauderdale!

Sponsored by American Physical Society (APS) Division of Plasma Physics (DPP)

SCIENCE TEACHER DAY

Tuesday, October 22

Hilton Ft. Lauderdale Marina

Free workshops for Middle and High school teachers taught by plasma scientists. Every teacher will receive:

- Plasma ball
- Half-coated plasma tube
- Resource materials, posters, lesson plans, and more

Workshops will help you:

- Introduce your students to plasma science
- Incorporate plasma and fusion into your present curriculum
- Satisfy your state and national standards

STUDENT PLASMA SCIENCES EXPO

Thursday and Friday, October 24-25

Fort Lauderdale/Broward County Convention Center

Your Middle and High school students will:

- Participate in hands-on plasma and physics demonstration
- Learn how plasma is part of their daily lives
- Interact with local, national and international scientists

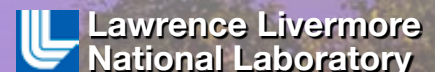

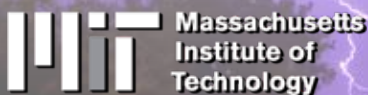

*General Public Welcome Thursday, Oct. 24
From 6 - 8 pm. No Registration required.*

Registration is Open NOW!
